Subject: New Construction Checks

Hope you had a wonderful New Year! Accurate is excited to start 2022 and make it a great year.

We'll be in your community over the next two weeks checking new construction. The 2022 assessment roll is as of 1/1/2022, so Accurate verifies the percent complete of all new construction as of 1/1/2022.

All our assessors will be in Accurate-marked cars, with our logo and contact information.

Thanks for sending the building permits throughout the year. If there are any late December building permits, please send them to us.

Let me know if you have any questions!

Thank you,

KYLE L. KABE
